Forecast for Sunday 10 Nov 2024

Weather: Mostly cloudy with outbreaks of light rain or drizzle. Southern parts of Snowdonia and hills northeast of the A5 may see some drier and brighter spells during the morning and early afternoon. Cloud and rain clear south during the evening with skies becoming clear.

Chance of cloud-free hill tops above 800m: 30%, but 60% in the south and east for a time, becoming 90% during the evening.

Low Cloud and visibility: Widespread cloud and fog above 500 or 600m, mainly affecting Snowdon and northern Snowdonia with difficult navigation conditions. Cloud more broken at times in the south and hills northeast of the A5 during morning and early afternoon. Visibility poor at times in drizzle and very poor in low cloud.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Some difficult navigation conditions over much of Snowdonia with damp and slippery rocks in the low cloud.

Forecast for Monday 11 Nov 2024

Weather: Dry with long sunny or clear periods. Another mild day in the valleys but feeling rather cold on the tops in the fresh northerly breeze.

Maximum wind: North 15 to 20mph.

Chance of cloud-free hill tops above 800m: 100%.

Low Cloud and visibility: Excellent visibility with hills clear of any cloud.

Temperature: **Valleys:** Plus 7C rising to 11 or 12C.
At 800m: Plus 5C rising to 8C.
Freezing level: Above summits.
